Multiple Sclerosis Update

Dr. Howard Weiner of Harvard Medical School and Founder of the Partners MS Center at Brigham and Women's Hospital and Dr. Samia Khoury of Harvard Medical School and co-director of the Partners MS Center at Brigham and Women's Hospital will give you the latest insights in understanding multiple sclerosis.

Topics include:

Theories and Causes of Multiple Sclerosis
Current and Future Therapies
Advances in MRI Imaging
Women's Issues in MS
Natural History Study of Multiple Sclerosis
Question and Answer Session

Biotechnology and Pharmaceutical companies will display and provide educational resources on MS and current therapies.

National Multiple Sclerosis Society, Central New England Chapter Represented
